QIB Sustainable Deposit Report 2024

Sustainable Deposit Report 2024

QIB remains steadfast in its commitment to driving growth, managing risk, and seizing opportunities through bespoke, sustainable financing solutions tailored to the diverse needs of its clients. In alignment with Qatar National Vision 2030, the Bank actively supports high-impact initiatives across critical sectors such as green building development, pollution mitigation, education, and healthcare.

As Qatar's sustainable finance ecosystem continues to evolve, QIB recognizes significant potential for growth in sustainable finance. ESG-linked securities are increasingly central to investment strategies, reflecting the Bank's dedication to market development and the promotion of responsible investment practices.

In 2024, QIB successfully raised QAR 1.445 bn. in sustainable deposits. These achievements were driven by proactive engagement of our Treasury Department, who facilitated client awareness and understanding of sustainable finance.

QIB ensures that sustainable deposit balances are matched against qualifying, Shariah-compliant financing exposures. For the QAR 1.445 bn. ESG deposits, the allocation of the ESG deposits reflects the availability of eligible assets during the reporting period and is aligned with QIB's internal sustainable finance criteria.

Sector	Value Allocation (bn. QAR)	Allocation
Renewable Energy	0	0%
Green Buildings	1.445	100%
Pollution Prevention and Control	0	0%
Essential Services (Healthcare & Education)	0	0%
SMEs	0	0%
Total	**1.445**	**100%**
